LIVERPOOL

WELCOME

We are Liverpool City Region's professional community. We come together to learn, connect, belong and grow so that we can contribute to a shared vision:

A thriving economic future for the Liverpool City Region; one with a balanced contribution from different sectors and communities, and greater opportunities for both people and businesses to develop and prosper.

LCR is brimming with qualified professionals, from accountants, stockbrokers and solicitors to architects, media and digital professionals and surveyors. All of whom contribute to the success of the local economy. Whether facilitated by the organisation or the members themselves, we believe the relationships that are built across the community can create meaningful and lasting change.

OUR STRATEGIC PRIORITIES:

MEMBERSHIP - Our mission is to connect and inspire the community in ways that create value for them and our city region. We provide a number of events, content, shared best practices, introductions and support that bring professionals together and help them to achieve their goals as individuals and businesses.

INFLUENCE - It's vitally important that we use our collective might to bring about positive change. We engage LCR Combined Authority, LEP/Growth Platform, and Local Authorities across LCR to identify ways we can contribute to their activities and give the professional community a voice.

EDUCATION - There is an important leadership and advocacy role to play to make sure that talent from the schools and higher education establishments is developed and retained within the LCR professional community. We want Liverpool and its surrounding areas to be a place where people see opportunities to develop successful careers.

***"I am part of a local
professional community
who support one another. I
am only a phone call away
from a new introduction."***
